## Volatility meter

## Investment advisor

Great-West Life

## Who is Great-West Life?

- Group of investment professionals from Great-West Life and its subsidiaries select the individual funds and the per cent weighting of each fund

## Investment management style

The asset mix for each Portfolio Fund is the result of extensive research incorporating investment risk and return relationships and correlation analysis. Portfolio Funds provide diversification among: Asset classes such as stocks, bonds, mortgages and real estate; types of asset classes such as stocks in large, small, or resource-based companies and bonds issued by governments and corporations; assets in different countries such as Canada, the U.S. and other parts of the world; and different investment advisors with different investment styles.

## Fund objective

The objective of this Fund is to provide a balance between income and capital appreciation over the long term. This Fund invests in other London Life funds. It has been created for those investors who want a longer-term balance between portfolio growth and income at reduced volatility levels. Its target mix is approximately 60% equities and 40% fixed income investments.

## Historical performance as at June 30, 2010

This graph shows how a \$10,000 investment in this fund would have changed in value compared with the benchmark: 36% S&P/TSX Composite Index, 24% MSCI World, 40% DEX Universe
